

A close-up photograph of a woman with dark curly hair, wearing a white lab coat and clear safety goggles. She is looking intently at something in her hands, which are slightly out of focus. The background is a blurred laboratory setting with various pieces of equipment.

Discovering and
communicating excellence

www.exzellenz-entdecken.de

Raising awareness and developing competence on the topic of excellence and gender for PostDocs and university communication

A research and practice project of the University of Duisburg-Essen funded by the German Federal Ministry of Education and Research (BMBF)

What is scientific excellence, and how is it rendered visible?

Research has proven that women and men are perceived and evaluated differently in their scientific performance.

The EXENKO project explores the question of what is understood by excellence in research and according to which criteria scientific achievements obtain visibility.
